

INUVIKA ENTERPRISE DESKTOP CLIENT END USER LICENSE AGREEMENT ("EULA")

Updated July 2019

This is a legal agreement ("AGREEMENT") between the end-user customer ("you"), and the Inuvika subsidiary from which you purchased your subscription (the applicable subsidiary is hereinafter referred to as "INUVIKA"). This EULA applies to INUVIKA'S Enterprise Desktop Client ("EDC") (hereinafter the "Software").

BY INSTALLING AND/OR USING THE SOFTWARE, YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS AGREEMENT. **IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, DO NOT INSTALL AND/OR USE THE SOFTWARE.** Nothing contained in any purchase order or any other document submitted by you shall in any way modify or add to the terms and conditions contained in this AGREEMENT.

1. **END USER LICENSES.** Subject to the terms and conditions of this Agreement, Inuvika grants you a non-exclusive, non-sublicensable and non-transferable license to install and use the Software during the Term in accordance with this Agreement. The Software contains both INUVIKA proprietary and open source software in object code form licensed hereunder. "Appliance" means a hardware appliance with installed Software. Notwithstanding anything set forth in this AGREEMENT, your use of Open Source Software shall in all ways be exclusively governed by the open source license indicated as applicable to the code listed. "Open Source Software" means those portions of the Software that are provided under an open source license (e.g., a version of a GNU General Public License). Open Source Software contained in the Software are listed on Schedule "A" to this Agreement.

Your license will be activated by a subscription key ("Subscription Key") that allow use of the Software in quantities defined by your subscription agreement with Inuvika and/or your purchase order (the "Subscription Agreement").

- (a) **NFR License for Demo.** If Software is provided as "Not For Resale (NFR)," notwithstanding any term to the contrary in this AGREEMENT, your license permits use of the Software only if you are a current INUVIKA authorized distributor or reseller, and then only for demonstration, test, or evaluation purposes in support of your end-user customers, and not for any other purpose, including, without limitation, customer training or production purposes. Note that NFR Software may disable itself upon the expiration of the Subscription Key. In no event may NFR Software be used beyond expiration.
- (b) **POC for Evaluation.** If Software is provided for a Proof of Concept "POC", then notwithstanding any term to the contrary in this AGREEMENT, your license permits use only if you are an end-user customer and then only for your internal demonstration, test, or evaluation purposes, and not for any other purpose, including, without limitation, production purposes. Your license is for the period determined by the Subscription Agreement with no right to Support (as defined in Inuvika's Support Policy) or the Infringement Indemnification in Section 3 hereunder. Note that POC Software may disable itself upon the expiration of the Subscription Key. In no event may POC Software be used beyond expiration.

- (c) **Maintenance.** The maintenance plan applicable to the Software is identified in Inuvika's General Terms and Conditions at <https://www.inuvika.com/licenses/terms-and-conditions/> (the T&C's). Maintenance for the Software begins upon delivery of the Subscription Keys.

Updates shall be subject to the terms of this AGREEMENT. In addition to maintenance, you may also purchase Services (as defined in the T&C's) including installation services or technical consulting from Inuvika distributors or resellers.

2. **DESCRIPTION OF OTHER RIGHTS, LIMITATIONS, AND OBLIGATIONS.** Except as expressly set forth in Section 1, you may not transfer, assign, share, grant rights in or lease the Software except to the extent such foregoing restriction is prohibited by applicable mandatory law. You are responsible for ensuring that any transferee accepts the terms of this AGREEMENT. You must provide evidence that the conditions for a lawful transfer of the Software are met. All warranty, Maintenance and infringement indemnification rights will terminate automatically upon such transfer and will not be available to the transferee. You must comply with applicable export laws with respect to such a transfer.

You may not modify, translate, reverse engineer, decompile, disassemble, create derivative works based on or copy the Software, except as expressly licensed in this AGREEMENT or to the extent such foregoing restriction is expressly prohibited by applicable mandatory law. You may not remove any proprietary notices, labels, or marks on the Software. In the case of customized branding, the words "Powered by Inuvika" must form part of any alternative branding. Notwithstanding the foregoing, this AGREEMENT shall not prevent or restrict you from exercising additional or different rights granted by any portions of the Software that are Open Source Software.

ALL RIGHTS IN THE SOFTWARE NOT EXPRESSLY GRANTED ARE RESERVED BY INUVIKA OR ITS LICENSORS. INUVIKA and/or its licensors own and retain all title and ownership of all intellectual property rights in and to the Software (subject to any Open Source Software rights you have), including any adaptations, modifications, translations, derivative works or copies, and any intellectual property rights relating to the design, manufacture, or operation of the same.

3. **INFRINGEMENT INDEMNIFICATION.** In the event of any claim, suit, or proceeding brought against you based on an allegation that the Software (excluding Open Source Software) infringes upon any patent, copyright or trade secret of any third party ("Infringement Claim"), INUVIKA shall defend, or at its option, settle, such Infringement Claim, and shall pay all costs (including reasonable attorney's fees) associated with the defense of such Infringement Claim, and all damages finally awarded or settlements undertaken by INUVIKA in resolution of such Infringement Claim, provided you: (i) promptly notify INUVIKA in writing of your notification or discovery of an Infringement Claim such that INUVIKA is not prejudiced by any delay in such notification; (ii) give INUVIKA sole control over the defense or settlement of the Infringement Claim; and (iii) provide reasonable assistance in the defense of the same. Following notice of an Infringement Claim, or if INUVIKA believes such a claim is likely, INUVIKA may at its sole expense and option: (i) procure for you the right to continue to use the alleged infringing Software; (ii) replace or modify the Software to make it non-infringing; or (iii) accept return of the Software and provide you with a prorated refund for the term remaining on your Subscription Agreement. INUVIKA assumes no liability, and shall have no liability, for any Infringement Claims or allegations of infringement based on: (i) your use of any Software after notice that you should cease use of such Software due to an Infringement

Claim; (ii) any modification of the Software by you or at your direction; (iii) your combination of the Software with non-INUVIKA hardware, Appliances, software, services, data or other content or materials if such Infringement Claim would have been avoided by the use of the Software alone. THE FOREGOING STATES YOUR EXCLUSIVE REMEDY WITH RESPECT TO ANY INFRINGEMENT CLAIM OR ALLEGATION OF INFRINGEMENT.

4. **NO WARRANTY.** Except as set out in section 3 with respect to infringement of proprietary portions of the Software, INUVIKA provides the Software "as is" and does not warrant that the operation of the Software shall be uninterrupted or error free, that any errors or defects can be corrected, or that Software meets your requirements. THERE IS NO WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE SOFTWARE IS WITH THE END USER. Except as set out above in section 3 with respect only to the proprietary aspects of the Software, INUVIKA shall have no liability for any claim for patent, copyright, license, or trade secret infringement based, in whole or in part, on any modification of any Software by Reseller, you or any third party, or their respective employees or agents. In the event a preliminary or final judgment shall be obtained against your use or operation of the Software, or any part thereof, by reason of an alleged infringement of a third party's copyright by any INUVIKA binary code, INUVIKA may replace, at its election, in whole or in part, such binary code with a substantially compatible and functionally equivalent program or modify such binary code to avoid the infringement. This shall be your sole remedy in the event of such a claim.

5. **NO IMPLIED WARRANTIES.** EXCEPT AS EXPRESSLY STATED IN SECTION 3 OF THIS AGREEMENT, INUVIKA MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES FOR THE SOFTWARE, WRITTEN OR ORAL. TO THE MAXIMUM EXTENT PERMITTED UNDER APPLICABLE LAW, ALL OTHER WARRANTIES IN RELATION TO THE SOFTWARE ARE SPECIFICALLY EXCLUDED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES ARISING BY STATUTE, COURSE OF DEALINGS OR USAGE OF TRADE.

6. **LIMITATION ON DIRECT DAMAGES.** EXCEPT AS EXPRESSLY STATED IN SECTION 3 OF THIS AGREEMENT, INUVIKA'S TOTAL LIABILITY AND EXCLUSIVE REMEDY FOR ANY CLAIM, LIABILITY, DAMAGE, PENALTY, LOSS OR EXPENSE OF ANY TYPE WHATSOEVER, ARISING OUT OF THE SOFTWARE PROVIDED HEREUNDER OR THE USE OF THE SOFTWARE, SHALL BE LIMITED TO PROVEN DIRECT DAMAGES CAUSED BY INUVIKA'S SOLE NEGLIGENCE IN AN AMOUNT NOT TO EXCEED THE AMOUNTS PAID BY RESELLER TO INUVIKA IN RESPECT OF YOUR SUBSCRIPTION (OR THE AMOUNT PAID DIRECTLY BY YOU TO INUVIKA) DURING THE LAST SIX (6) MONTHS UNDER THE SUBSCRIPTION AGREEMENT PRECEDING THE EVENT GIVING RISE TO SUCH LIABILITY.

7. **NO INDIRECT DAMAGES.** EXCEPT AS EXPRESSLY STATED IN SECTION 3 OF THIS AGREEMENT, INUVIKA SHALL HAVE NO LIABILITY TO YOU FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGE, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY OR OTHERWISE, SUCH AS FINANCIAL OR COMMERCIAL PREJUDICE, LOSS OF BUSINESS OPPORTUNITIES, OF CLIENTELE OR OF SAVINGS, ANY COMMERCIAL DISTURBANCE WHATSOEVER, ANY INCREASE OF COSTS OR OTHER GENERAL EXPENSES, LOSS OF PROFIT OR LOSS OF BRAND IMAGE THAT MAY RESULT FROM THE AGREEMENT OR THE USE, THE IMPROPER USE OR THE LACK OF USE OF ANY OF THE SOFTWARE, EVEN IF INUVIKA WAS ADVISED OF THE POSSIBILITY THEREOF. IN NO EVENT SHALL INUVIKA'S OR ITS RESELLER'S LIABILITY TO YOU, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE, EXCEED THE AMOUNT SET OUT IN SECTION 6

ABOVE. THE FOREGOING LIMITATIONS SHALL APPLY EVEN IF THE ABOVE-STATED WARRANTY FAILS OF ITS ESSENTIAL PURPOSE. INUVIKA WILL NOT BE LIABLE FOR ANY THIRD-PARTY INTRUSIONS INTO THE END USER'S INFORMATION SYSTEM, EVEN IF THESE INTRUSIONS ARE DUE TO A FAULT IN THE INUVIKA PRODUCT. INUVIKA WILL NOT BE LIABLE FOR ANY ACCESS DIFFICULTIES OR IMPOSSIBILITY OF ACCESS TO INFORMATION OR DATA DUE TO PROBLEMS WITH THE SOFTWARE TELECOMMUNICATION NETWORKS OR OTHER TECHNICAL DIFFICULTIES.

8. **RESELLER RELATIONSHIP** - The relationship between INUVIKA and its Distributors or Resellers is that of independent contractors. Nothing shall be construed to make Distributors or Resellers a partner, joint-venturer, agent or co-owner of INUVIKA, nor shall it allow Distributors or Resellers to create or assume any obligation or make any representation on behalf of INUVIKA for any purpose whatsoever. Distributors and Resellers do not have the right to make modifications to this Agreement.

9. **REGULAR BACK-UPS.** During the Term of this Agreement and as part of its obligation to mitigate damages, you will take reasonable data back-up measures. In particular, you shall conduct a daily back-up process and back-up the relevant data before any remedial, upgrade or other works on your production systems. To the extent INUVIKA's liability for loss of data is not already excluded under this Agreement, INUVIKA shall, in case of data losses only, be liable for the typical effort to recover the data which would have occurred if you had appropriately backed up your data.

10. **LIMITATION PERIOD.** All claims for damages based on defects in the Software, Maintenance or Service shall be time-barred 12 months after expiry of the Subscription Key, except if the parties have agreed on a shorter warranty period. Unless otherwise required by applicable law, the limitation period for all other claims for damages shall be eighteen (18) months after the cause of action accrues, unless statutory law provides for a shorter limitation period in which case such shorter period shall apply.

11. **DATA PROTECTION**

(a) INUVIKA hereby informs you that the creation of databases containing personal data and the collection and processing of personal data is regulated by law. If your use of Software is based on personal data collected and transmitted by you, INUVIKA, may not be held liable for any matter related to the compliance with the protection of personal data.

(b) You are aware of the regulations on the protection of personal data and warrant to INUVIKA that you comply with the provisions of all data-protection laws.

(c) You agree to make all filings, apply for all authorizations and give all notifications required based on the kind of data and/or files used.

(d) You agree that the Software will not be shipped, transferred or exported into any country or used in any manner prohibited by or in breach of any export laws of the country in which you are located nor to Iran, Iraq, Libya, North Korea, Sudan, South Sudan, Syria, Yemen, or any other country to which there are embargoes on goods and/or services under Canadian, British or U.S. trade laws. In addition, Inuvika Software may not be distributed to persons on the Table of Denial Orders, the Entity List, or the List of Specially Designated Nationals pursuant to U.S. laws (collectively the "Export Laws"). In

addition, if the Software is identified as an export controlled item under the Export Laws, you represent and warrant that you are not a citizen of, or located within, an embargoed or otherwise restricted nation and that you are not otherwise prohibited under the Export Laws from receiving the Software. All rights to install and use the Software are granted on condition that such rights are forfeited if you fail to comply with the terms of this Agreement.

(e) You shall be solely liable for all declarations and legal and/or administrative authorizations required to use the Software and the Services in the country in which they will be used by you.

12. **TERM.** This Agreement will be effective on the date that the Subscription Key takes effect for the term specified in the Subscription Agreement with Inuvika. After this initial term, the Agreement will be automatically extended for annual periods at INUVIKA's then current subscription fee, unless terminated by Reseller or you, by giving four (4) months' prior notice before the end of the then current contractual period. Notice shall be given by registered letter to INUVIKA at the address at www.INUVIKA.com or, if notice to you, at the address on the your Purchase Order.

13. **TERMINATION.** You may terminate this Agreement at any time by removing the Software from your hardware, Appliances or devices and destroying all copies and then providing written notice to INUVIKA. INUVIKA reserves the right to terminate this Agreement with immediate effect, without prior notice, if you breach any terms of this agreement or if:

(a) you have taken the initiative to modify the Software or specific developments made by INUVIKA;

(b) you have misused the Software or specific developments;

(c) the Inuvika Subscription Agreement is terminated for any reason;

14. **U.S. GOVERNMENT END USER.** The Software and documentation associated with it qualify as "commercial items," as that term is defined at Federal Acquisition Regulation ("FAR") (48 C.F.R.) 2.101, consisting of "commercial computer software" and "commercial computer software documentation" as such terms are used in FAR 12.212. Consistent with FAR 12.212 and DoD FAR Supp. 227.7202-1 through 227.7202-4. Notwithstanding any other FAR or other contractual clause to the contrary in any agreement into which this Agreement may be incorporated, an Inuvika Distributor or Reseller may provide to Government end user or, if the Agreement is direct, Government end user will acquire, the Software and associated documentation with only those rights set forth in this Agreement. Use of either the Software or the associated documentation or both constitutes agreement by the Government that the Software and the associated documentation are "commercial computer software" and "commercial computer software documentation," and constitutes acceptance of the rights and restrictions herein.

15. **AUTHORIZED DISTRIBUTORS AND RESELLERS.** INUVIKA's authorized distributors and resellers do not have the right to make modifications to this AGREEMENT or to make any additional representations, commitments, or warranties binding on INUVIKA.

16. **ASSIGNMENT AND SUBCONTRACTING.** You may not assign any rights or obligations under this agreement except as permitted by law or as set forth below, without the prior written consent of Inuvika, unless assigned to a successor in interest, or pursuant to a merger, corporate reorganization, or a sale or transfer of all or substantially all of the party's assets. You shall provide notice to INUVIKA upon completion of any permitted assignment. Subject to this restriction, this Agreement will be binding upon and inure to the benefit of the parties hereto, their successors and assigns. INUVIKA may use subcontractors to provide services to you under this Agreement.

17. **CHANGES TO THIS AGREEMENT.** INUVIKA may update or modify this Agreement from time to time, including any referenced policies and other documents. Current versions of the Agreement will be posted at <https://www.inuvika.com/licenses/eula/>. If a revision meaningfully reduces your rights, we will use reasonable efforts to notify you (by, for example, sending an email to the billing or technical contact you designate in the applicable purchase order or a general e-mail to end users). If we modify the Agreement during your Subscription Agreement term, the modified version will be effective upon your next renewal of a Subscription. In this case, if you object to the updated Agreement, as your exclusive remedy, you may choose not to renew, including cancelling any terms set to auto-renew. With respect to NFR subscriptions accepting the updated Agreement is required for you to continue using the NFR Software. If you do not agree to the updated Agreement after it becomes effective, you will no longer have a right to use the NFR Software. For the avoidance of doubt, any purchase order is subject to the version of the Agreement in effect at the time of the purchase order as posted on <https://www.inuvika.com/licenses/eula/>.

18. **HOW TO CONTACT INUVIKA.** Should you have any need to contact INUVIKA for any reason, other than legal notice under section 12, write to INUVIKA Customer Service at info@inuvika.com.

19. **TRADEMARKS.** This Agreement does not grant you the right to use any INUVIKA trade or service mark.

20. **SEVERABILITY.** If any provision of this Agreement is held to be invalid by any law, regulation or as a result of a final decision of a court of law with jurisdiction, the other provisions will remain in full force and effect.

21. **GOVERNING LAW.** This Agreement is governed by the laws of the Province of Ontario, Canada.

22. **CONSENT TO JURISDICTION.** IN THE EVENT OF A DISPUTE, IF NO AMICABLE SETTLEMENT CAN BE REACHED WITHIN 120 DAYS FROM THE DATE ON WHICH SUCH DISPUTE HAS ARISEN, SPECIFIC JURISDICTION IS GRANTED TO THE COURTS OF THE PROVINCE OF ONTARIO SITTING IN THE CITY OF TORONTO, NOTWITHSTANDING PLURALITY OF DEFENDERS, EVEN WITH RESPECT TO EMERGENCY PROCEEDINGS OR PROTECTIVE MEASURES, BY INJUNCTION OR BY REQUEST.

Listing of Open Source Components

The Software includes components that are the intellectual property of Inuvika, but also other components that are subject to the terms and conditions of "open source" software licenses. To the extent applicable, we will identify open source software included in the Software in or through the Software itself. Some of these licenses require us to provide the open source software to you on the terms of the open source license instead of the terms of the EULA. In that case, the terms of the open source license will apply, and you will have the rights granted in such licenses to the open source software itself, such as access to source code, right to make modifications, and right to reverse engineer. Notwithstanding the foregoing, if you are using the Software in the form provided to you, in accordance with your permitted scope of use, with no distribution of software to third parties, then none of these open source licenses impose any obligations on you beyond what is stated in the EULA. In conformance with these open source license requirements, changes made by Inuvika are either contributed directly back to the original developers of the open source software and are available as part of their public distributions, or are made available here, as downloadable source code.

Open source software included in the Software and requiring reproduction in the license text in the distribution are given below:

The Unix configuration script "configure" was produced with GNU Autoconf. It is copyright by the Free Software Foundation but is freely distributable. The same holds for its supporting scripts (config.guess, config.sub, ltmain.sh). Another support script, install-sh, is copyright by X Consortium but is also freely distributable.

The IJG distribution formerly included code to read and write GIF files. To avoid entanglement with the Unisys LZW patent (now expired), GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the resulting GIF files are larger than usual, but are readable by all standard GIF decoders.

We are required to state that "The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated."

GNU GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <<http://fsf.org/>>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The GNU General Public License is a free, copyleft license for software and other kinds of works.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS

0. Definitions.

"This License" refers to version 3 of the GNU General Public License.

"Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

"The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.

To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

A "covered work" means either the unmodified Program or a work based on the Program.

To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

1. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is

available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

- a) The work must carry prominent notices stating that you modified it, and giving a relevant date.

b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to “keep intact all notices”.

c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an “aggregate” if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation’s users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.

d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.

e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A “User Product” is either (1) a “consumer product”, which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, “normally used” refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

“Installation Information” for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms.

“Additional permissions” are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

- a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or
- b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or
- c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or
- d) Limiting the use for publicity purposes of names of licensors or authors of the material; or
- e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or
- f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered “further restrictions” within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version".

A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.
